-----

This summary covers an application by Globeleq Africa Limited (GAL) for its equity and quasi-equity investments in CESOM - Central Solar de Mocuba, S.A. (CESOM) in ...

Located in Zamb&#233;zia province, this 40 MW facility is a crucial step towards sustainable energy in a nation rich in hydro, gas, and solar potential but struggling with transmission and rural ...

Why does the inverter of the communication base station need cooling when connected to the grid Unattended base stations require an intelligent cooling system because of the strain they are ...

The Metoro Solar Power Station is a 41 megawatt solar power plant in Mozambique. The power station was developed by a consortium comprising Neoen, a French independent power producer (IPP) based in Paris, France and Electricidade de Mo&#231;ambique (EDM), the Mozambican electricity utility company. Construction began in October 2020, with commercial commissioning expected in the fourth quarter of 2021.

This research paper presents the results of the implementation of solar hybrid power supply system at telecommunication base tower to reduce the fuel consumption at rural area.

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy ...

The system links Mozambique's Songo converter station to the Apollo inverter station near Johannesburg, South Africa, by a 1414-km (879-mile), 530-kV HVDC overhead transmission line.

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the ...
