By combining solar generation with a robust and independent energy storage system, the client's site gains a continuous and stable power supply that cushions every voltage drop and blackout.

Solis, a global leader in renewable energy solutions, has once again set a new benchmark in sustainable energy with the successful deployment of an advanced off-grid Battery Energy ...

At the Yenangyaung Natural Gas Distribution Station in Myanmar, a key energy hub connecting China and Myanmar, ten SigenStor units are ensuring a seamless power ...

The power-plant is part of a longer-term goal which is to achieve 100 percent electrification by 2030. The partnership fired up the LNG-fueled power plant in Thaketa Township of Yangon, ...

CDS cooperated with the Myanmar government on a 33kV off-grid photovoltaic energy storage project and successfully completed the first phase.

120+ expert speakers will cover the big ideas, market disruptors, new industry trends and innovative technologies in large scale solar, smart grid, rural electrification, rooftop solar, ...

With rising demand for renewable integration and grid stability, the construction of the Myanmar energy storage power station has become a focal point for investors and policymakers.

Ywama power station is an operating power station of at least 292-megawatts (MW) in Yangon, Myanmar with multiple units, some of which are not currently operating.

CDS cooperated with the Myanmar government on a 33kV off-grid photovoltaic energy storage project and
