Expert articles and interactive video lessons on how to use the Spanish language. Learn about "por" vs. "para", Spanish pronunciation, typing Spanish accents, and more.

What does `%[^\n]` mean in C? I saw it in a program which uses `scanf` for taking multiple word input into a string variable. I don't understand though because I learned that ...

Elaborating on what Galactic Cowboy said, `\n` is not the newline character, it is a symbol that represents the newline character in C character and string literals (and in some other ...

Translate millions of words and phrases for free on SpanishDictionary , the world's largest Spanish-English dictionary and translation website.

1 `\n` is an escape character for strings that is replaced with the new line object. Writing `\n` in a string that prints out will print out a new line instead of the `\n` Java Escape ...

What's the difference between `\n` (newline) and `\r` (carriage return)? In particular, are there any practical differences between `\n` and `\r`? Are there places where one should be used ...

@AndrewS & `\n` is a pointer (& is the address-of operator); a pointer is necessary because C is pass-by-value, and without a pointer, `printf` could not modify the value of `\n`. The `%s` usage in ...

What is difference in a string between `\r\n`, `\r` and `\n`? How is a string affected by each? I have to replace the occurrences of `\r\n` and `\r` with `\n`, but I cannot get how are they different in a stri...
