SINEXCEL-RE provides customized battery testing and energy storage solutions for diverse industries, ensuring precision, safety, and efficiency.

Through customized solutions and comprehensive after-sales services, Newwell helps customers achieve efficient and precise battery performance testing, making it a core tool in scientific ...

In today's fast-paced world, battery systems are at the heart of innovation, powering everything from electric vehicles to renewable energy storage. At Hongda New Energy, we understand ...

HONGDIAN Battery charging and discharging tester is a special instrument for testing lithium battery pack, lead-acid battery pack, portable mobile power module and other battery packs ...

Who is Rongke new energy?Rongke New Energy is a leading professional battery energy storage system manufacturer. Our cutting-edge technology enables businesses and homes to control ...

This advanced testing system delivers unparalleled precision and flexibility for high-voltage battery applications, featuring a voltage accuracy of $\pm 0.05\%$ FS to ensure ultra-reliable performance ...

Affordable battery and system tester solutions from Shenzhen Hongda New Energy Co., Ltd., tailored to meet your specific needs. Quality and performance at competitive prices.

Safety Testing for Residential Energy Storage Systems (ESS) UL 9540B test protocol addresses a more robust ignition scenario and enhanced acceptance criteria to evaluate large scale fire ...

Based on NEWARE 5th generation test system architecture, it can perform Cycle Life Test, Rate Charging / Discharging Test, Pulse Simulation Test, HPPC, etc. Meanwhile, it can simulate the ...

Be applied to battery offline detection of the power batteries, the energy storage battery cabinets, and other high-voltage large modules/battery packs.
