-----  
Do you need a business license for a gas station?

Requirements for a general business license for a gas station can vary depending on the location and jurisdiction. In most cases, a general business license is required to operate a gas station. Additionally, there may be other permits and licenses required, such as environmental permits, fuel storage permits, and fire safety permits.

Do energy brokers have to register with the New York State Public Service Commission?

Public Service Law § 66-t requires energy brokers and energy consultants to register with the New York State Public Service Commission. The Commission directed implementation of these provisions in Case 23-M-0106.

What are the new rules for energy brokers & energy consultants?

The Commission directed implementation of these provisions in Case 23-M-0106. The new rules establish a registration process for energy brokers and energy consultants that requires an annual registration package consisting of a registration form, a \$500 registration fee, and a demonstration of financial accountability.

Do energy brokers & consultants need to submit a registration form?

Energy Brokers and Consultants are required to submit this registration form. Direct Employees of an Energy Broker or Energy Consultant are not required to submit this form as long as a registered Energy Broker or Energy Consultant is responsible for ensuring compliance.
