Which is the best solar inverter for NZ conditions?

Or read on to find out which is the best inverter for NZ conditions. In our opinion, Austrian-based company Fronius, offers the best solar inverters on the market right now, hands down. While they aren't the cheapest option, they do offer the best value. Here's why. The longer your solar system lasts, the more free power you'll enjoy.

Who are Sungrow solar inverters?

A global inverter and storage manufacturer with a complete range of products for solar and storage projects in Australia and New Zealand. Sungrow make a complete range of solar inverters and energy storage products for residential, commercial, industrial and utility grade solar projects.

What makes GoodWe a great inverter & storage company?

With four research centres and over 1,000 engineers, GoodWe delivers advanced inverter and storage solutions that adapt quickly to new standards and design challenges. GoodWe's EcoSmart Home and Commercial setups combine inverters, battery storage, and management platforms for seamless control and energy savings.

What is an inverter & energy storage solution?

There is an inverter and energy storage solution for every application including grid connected, backup power and off grid. Designed specifically to suit Australian and New Zealand conditions and safety design standards.

In this guide, we'll break down what an inverter is, the important role it plays in your system and tell you why we ...

Available from 3 to 10 kW in both the single phase "Primo" and three phase "Symo". Being such a highly efficient AC-coupled inverter, we often also spec one in a larger off-grid system where ...

In this guide, we'll break down what an inverter is, the important role it plays in your system and tell you why we think Fronius offers the best inverters for New Zealand ...
