---

Power your home or business with clean, cost-saving solar energy. Serving Ottawa & Eastern Ontario since 1996. Explore solar energy solutions for cottages with Ottawa Solar Power. ...

We're currently engaged in a multi-year project to enhance the intelligence and resilience of our network by automating outage ...

Distributed Energy Resources, or DERs, are technologies that generate or store electricity either for homes and buildings to manage their energy use, or to serve energy demand directly on ...

This resource page looks at ways to ensure continuous electricity regardless of an unforeseen event are by using distributed energy resources.

While large power plants continue to play an essential role in Ontario's electricity system, new smaller-scale technologies, like solar panels and onsite battery storage, enable communities ...

Stakeholder cooperation leads directly to innovative distribution methods like energy storage systems for solar power or wind generation. Community involvement matters ...

We design, construct, install and repair ground mounted solar panels all across Ontario. Perfect for residential, commercial and industrial locations. Providing lithium battery storage solutions ...

Stakeholder cooperation leads directly to innovative distribution methods like energy storage systems for solar power or wind ...

We're currently engaged in a multi-year project to enhance the intelligence and resilience of our network by

automating outage restoration, improving capabilities to withstand ...

Demonstrate the role of active electricity distribution systems in a modern electric power grid. Lay the groundwork for a more reliable and resilient electricity system. Explore ...

Commercial and Residential Solar Power and Backup Battery Solutions in the Greater Ottawa Area. Experience sustainable solar energy tailored to your needs.

BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high ...
