Durable outdoor integrated telecom cabinet for base stations and data nodes. Provides reliable protection and efficient housing in harsh environments.

Wide Applicability: Compatible with standalone energy storage stations, commercial/industrial user-side systems, microgrids, and renewable ...

This design ensures that the cabinet can withstand extreme temperatures and harsh conditions, such as those found in the Sahara Desert, providing reliable power for communication base ...

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

For trackside signaling & rails stations, we offer a wide range of outdoor enclosures & solutions for electronics contained in trackside buildings.

The HJ-SG-D01 series is a lineup of outdoor communication single-bay cabinets designed for floor-standing installations in the fields of communication base stations, smart cities, smart ...

The RET cable is a key component that connects the RRU to the RCU. It is typically a multi-conductor cable that carries control signals ...

Experience the HJ-SG-D02 series from Huijue Group, a versatile outdoor communication energy cabinet designed for stable power supply in communication base stations, smart ...
