What is the Papua New Guinea regulation for small power systems?

On Monday April 11, 2022, the final version of the Papua New Guinea Regulation for Small Power Systems was handed over to the National Energy Authority (NEA) by United Nations Development Programme to facilitate the promotion of access to affordable clean energy.

Does Papua New Guinea have a 'small power system'?

Papua New Guinea has set a target for 70% of its households with access to electricity by 2030 and the 'Small Power Systems' sets the foundation to achieving this target. The United Nations Sustainable Development Goal 7 (SDG 7) calls for "affordable, reliable, sustainable and modern energy for all" by 2030.

What power plugs are used in Papua New Guinea?

In Papua New Guinea, power plugs and sockets (outlets) of type I are used. The standard voltage is 240 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.
