-----

Solving the power pricing challenge requires collaboration across sectors, innovation, and determination. Recently escalating power ...

The paper reviews energy storage technologies and their applicability to the Australian National Electricity Market (NEM). The increasing dynamic variability between ...

At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs.

Wood Mackenzie data shows that renewables capacity in Australia is now equivalent to over 80% of the peak grid load, while ...

Portfolio value of around \$38 billion. CEIG members' project pipeline is estimated to be more than 46GW across Australia. CEIG strongly advocates for an efficient transition to clean energy with ...

This report analyses the costs of building a grid-scale battery in Australia (the NEM and WEM). We analyse costs for past projects as well as projections for the future, with comparisons to ...

The growing trend of price arbitrage has led to larger and longer duration BESS projects as they are able to commercialise the arbitrage opportunities better than shorter-term batteries.

Who's Driving the Demand for Mobile Energy Storage Containers? Ever wondered why these steel boxes with batteries are suddenly everywhere - from solar farms to music ...

Solving the power pricing challenge requires collaboration across sectors, innovation, and determination.

Recently escalating power prices declared in the federal budget ...

Wood Mackenzie data shows that renewables capacity in Australia is now equivalent to over 80% of the peak grid load, while battery storage investments have lagged at ...

At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities. Housed in ...

The Australia energy storage market is witnessing strong growth, driven by the accelerating adoption of renewable energy and the rising need for grid stability.
