Who makes the most solar modules in the world?

According to InfoLink, the top 10 manufacturers shipped approximately 226 GW of modules in the first half of this year, an increase of 40% year-on-year. Jinko, JA Solar, Trina and Longi have occupied the top four spots since 2019. The four manufacturers account for approximately 63% of the total module volume in this survey.

Which solar module shipments will be fierce in 2024?

Competition for third and fourth place in the global module shipments list will be fierce in 2024. According to Trina Solar, its shipments of 50.5GW in the first three quarters ranked fourth in the world, slightly less than LONGi Green's 51.23GW, with a difference of only 0.83GW between the two.

Which countries dominate solar module manufacturing?

According to Wood Mackenzie's report, China continues to dominate the solar module manufacturing landscape in terms of scale, but emerging challengers from India, South Korea, and Vietnam are rapidly closing the gap as global production becomes more geographically diverse.

Where does GCL Si rank in solar shipments?

GCL Si currently ranks 8th with 17GW of solar module shipments. Risen Energy, DAS Solar and Yingli Solar are in the race for 9th to 10th place with shipments of 14GW to 15GW in the first three quarters of 2024.

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production ...

After thorough research and field visits by Solarbe and Solarbe Consulting, we hereby announce the 2025 first half-year PV module shipment rankings for your reference:

Canadian Solar has been in the top 10 in global solar module shipments for 14 consecutive years, ranking second twice in 2015 and ...

According to InfoLink's statistics for 2024, the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as ...

After thorough research and field visits by Solarbe and Solarbe Consulting, we hereby announce the 2025 first half-year PV module ...

Discover all statistics and data on Global solar PV supply chain now on statista !

Infolink Consulting has released the global photovoltaic module supply ranking for the first half of 2024. In a survey of manufacturers, ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies ...

Globally, the top three exporters of Solar Module are China, Vietnam, and India . China leads the world in Solar Module exports with 103,827 shipments, followed by Vietnam with 95,537 ...

Data source: U.S. Energy Information Administration, Form EIA-63B, Annual Photovoltaic Module Shipments Report Note: Monthly data for 2024 are based on a subset of the largest ...

Canadian Solar has been in the top 10 in global solar module shipments for 14 consecutive years, ranking second twice in 2015 and 2017, and in the top five globally for 12 ...

According to InfoLink's statistics for 2024, the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as previously predicted, ...

According to InfoLink's statistics for 2024, the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has ...

Below, you will find a list of the 15 best exporters of solar power sorted by highest international sales. The top exporters shown above generated 94.7% of all solar power components sold on ...

Infolink Consulting has released the global photovoltaic module supply ranking for the first half of 2024. In a survey of manufacturers, changes were detected in the major global ...
