-----

Rezolv Energy and Monsson have obtained full approval from local authorities to begin constructing Dama Solar, a 1.04 GW photovoltaic facility in western Romania.

This project aims to support Romania's renewable energy targets and increase investment in the country, fueled by strong investor confidence ...

The Albina has an installed capacity of 60 MWp (48.8 MWac) and is expected to generate around 67 GWh of solar power annually - enough to meet the electricity needs of ...

Romania is undergoing a significant expansion in solar power within its broader energy transition framework, bolstered by European funding and legal reforms.

Rezolv Energy and Monsson received all approvals from local authorities for the construction of Dama Solar. The photovoltaic facility in western Romania will likely become the ...

Romania is undergoing a significant expansion in solar power within its broader energy transition framework, bolstered by European ...

In a significant step for Romania's renewable energy sector, Simtel Team has completed and commissioned a 52 MWp solar power plant in Giurgiu County.

The power plant will feature 84,000 LONGi Hi-MO 9 back-contact solar panels, each boasting 24.8% efficiency and designed to withstand Romania's variable climate. These high ...

With this new power plant, EDP reinforces its commitment to Romania, where it already operates several wind and solar projects with a total installed capacity of more than ...

Rezolv Energy and Monsson have received final approvals to commence construction of Dama Solar, a photovoltaic facility in Pilu and Graniceri communes, Arad ...

PPC Group has commissioned a new 130 MW solar power plant in Romania, located in the Calugareni area approximately 40 kilometers south of Bucharest. The facility ...

This project aims to support Romania's renewable energy targets and increase investment in the country, fueled by strong investor confidence and a growing national emphasis on renewable ...

With this new power plant, EDP reinforces its commitment to Romania, where it already operates several wind and solar projects with a ...
