Where is the largest battery energy storage system in Romania?

Nova Power & Gas, part of the E-INFRA Group, has announced the commissioning and start of commercial operations of the largest battery energy storage system (BESS) in Romania. The facility, located in Floresti, Cluj County, has an installed power of 200 MW and a storage capacity of 400 MWh.

Is battery energy storage a pillar of Romania's energy transition?

Recent updates about investments in battery energy storage systems (BESS) in Romania indicate the technology is becoming another pillar of the country's energy transition alongside wind power. For several years now, photovoltaics, and prosumers in particular - including municipal authorities, have dominated the scene.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

The Electrica Group, a leading player in the Romanian energy sector, has announced a significant investment in energy storage with the ...

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or building standalone energy storage facilities. ...

Nova Power & Gas, part of the E-INFRA Group, has announced the commissioning and start of commercial operations of the largest battery energy storage ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the ...

Trina Storage, the energy storage arm of Chinese solar company Trinasolar, will provide 16 Elementa 2 battery units for the DC-side of the system. The project is part of a ...

A subsidiary of Nova Power and Gas, part of the E-INFRA group, is on track to secure authorization for the construction of Romania's largest energy storage facility in Floresti, Cluj.

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest ...

The Electrica Group, a leading player in the Romanian energy sector, has announced a significant investment in energy storage with the launch of a project to build 15 ...

With increasing penetration of variable renewable energy sources in Romania, grid flexibility and storage capabilities are becoming critical for stability. The shift by Electrica ...

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the ...

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

Nova Power & Gas, a subsidiary of the E-INFRA Group, has officially commissioned Romania's largest battery energy storage system (BESS), a 200 MW facility ...

With increasing penetration of variable renewable energy sources in Romania, grid flexibility and storage

capabilities are becoming ...
