By serving as both charging stations and grid resources, bidirectional chargers are empowering businesses to be sustainable and efficient. For commercial sites in Romania, selecting the ...

In Romania, a burgeoning market for electric mobility, identifying the leading Original Equipment Manufacturers (OEMs) for bidirectional EV chargers is crucial for consumers and businesses ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

Highjoule has successfully deployed an integrated green energy solution for a Romanian client, featuring four 46kW foldable containerized solar systems complemented by five ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

By serving as both charging stations and grid resources, bidirectional chargers are empowering businesses to be sustainable and efficient. For ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

This standing integrated unit combines a photovoltaic inverter, energy storage converter, and battery pack. It is specifically designed for households and small business users, with high ...

output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Recently, our company completed the delivery of four 10-foot, 46kW foldable photovoltaic containers and five grid-connected energy storage systems in Romania. The ...

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions and lifting points of a standard 20f high ...

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions ...

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The ...

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system consists of four 10-foot 46KW foldable ...
