Is a battery energy storage project coming to Naval Base San Diego?

An \$8 million battery energy storage project is coming to Naval Base San Diego, using zinc-based technology that its makers tout as nonflammable. Eos Energy Enterprises announced Tuesday the stand-alone system will help boost reliability of operations at the base and provide energy resilience to the U.S. Navy's western fleet.

Does SDG&E have a battery & microgrid portfolio?

SDG&E has been rapidly expanding its battery energy storage and microgrid portfolio. We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility-owned energy storage and another 40+MW in development.

Did San Diego County conduct a public scoping meeting for Seguro energy storage?

San Diego County conducted a public scoping meeting for the Seguro Energy Storage project. Read more here. It's important to remember that fires and thermal runaway incidents at battery storage facilities are rare occurrences.

Where are SDG&E battery systems installed?

Typically, these battery systems and microgrids are installed on SDG&E-owned property; they are adjacent to our existing substation facilities or in critical locations where grid reliability and resiliency is needed most.

By delivering stored power when it is most needed, the Seguro storage project provides flexibility that will be critical to helping the San Diego region meet its decarbonization goals and ...
