Who specializes in commercial solar in San Diego?

Revel Energy specializes in commercial solar in San Diego. They collaborate closely with businesses to create customized solar solutions that meet their unique needs and enhance their return on investment.

Is San Diego a solar city?

San Diego has twice been ranked as the solar capital of the United States, in 2009 and again in 2012. There are more roof tops with solar panels in San Diego than any other city in the United States and Sullivan Solar Power has installed more than 8,000 solar energy systems in San Diego and neighboring counties. That's a lot of sunshine.

Is San Diego a good place for solar energy?

San Diego County also is a great location for solar energy, with abundant sunshine, clear blue skies nearly year-round and a prevailing political climate that supports solar power and other environmentally-friendly initiatives. San Diego has twice been ranked as the solar capital of the United States, in 2009 and again in 2012.

Does San Diego solar have any complaints?

With more than 8,000 solar power systems installed across San Diego County and Southern California, our company has never had any complaints filed against it with the contractors state license board or the Better Business Bureau. That's a record of outstanding customer service excellence you can trust.
