How do I get solar energy in San Diego?

This page outlines solar PV incentives, financing mechanisms, permitting process, and interconnection information for the City of San Diego and the utility that serves its territory, San Diego Gas and Electric. Qualified contractors are your key to getting the most productive solar energy system for your home or business.

Do I need a permit to install solar panels in San Diego?

If all documentation and fees are correct, the City of San Diego will approve a permit for your PV installation and installation of the system can begin. Upon completion of your installation, the City of San Diego must inspect your solar installation.

Does San Diego have to inspect a solar installation?

Upon completion of your installation, the City of San Diego must inspect your solar installation. For additional helpful information on inspections, please refer to the Residential Photovoltaic Systems Inspection Guidelines.

Does San Diego need a generator with solar panels?

A generator is proposed with the solar panels, and additional requirements will apply for the generator. Call the County of San Diego Noise Specialist at (858) 694-2177 and the Chief Electrical Inspector for further information. The proposed system is to be mounted on a manufactured home unit or mobile home unit.
