The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total ...

Serbia is set to host one of the largest integrated solar and battery storage projects in Southeast Europe, marking another milestone in the region's renewable energy expansion.

Serbia will soon see six large solar plants strategically positioned across the country. Key locations include Negotin, Zajecar, and Bosnjace. Together, these sites will ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy ...

Serbia will soon see six large solar plants strategically positioned across the country. Key locations include Negotin, Zajecar, ...

Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Fortis Energy has secured a construction permit for a 270MW PV plant combined with a 72MWh battery energy storage system in Serbia.

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar ...

Serbia plans to build solar power plants, wind farms, and pumped-storage hydropower plants, but also gas-fired power plants, energy storage batteries, and hydrogen facilities, in order to ...

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every ...

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every corner of Serbia.
