The European Commission has earmarked EUR2.1 million under the Connecting Europe Facility (CEF) for Energy to assess adding a battery energy storage system (up to 80 ...

Echogen Power Systems and Westinghouse Electric Company have signed a Memorandum of Understanding with state-owned hydropower operator Vodohospodárská ...

But did you know Slovakia's capital is now charging ahead (pun intended) with Europe's most ambitious large-scale energy storage project? Let's unpack this energy marvel that's making ...

With renewable energy capacity growing 18% annually since 2020, Slovakia faces a critical challenge: how to balance intermittent solar/wind power with grid stability [1]. Energy storage ...

But hold onto your solar panels: this Central European nation is rolling out one of the most ambitious energy storage project portfolios for 2025, aiming to become a regional ...

European Commission funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant ...

Integrating together a pumped-storage hydroelectric power plant and a modern battery storage represents a unique power-engineering project for increasing flexibility and ...

Echogen, a pioneer in supercritical carbon dioxide (sCO₂)-based PTES technology, is collaborating with Westinghouse to deploy ...

Echogen Power Systems and Westinghouse Electric Company have signed a Memorandum of Understanding with state-owned ...

With a grant of more than EUR2.1 million, the project is carrying out studies to prepare the way for the modernisation and hybridisation of the Cierny Váh pumped hydro energy ...

The planned facility in Slovakia will be the first of its kind in Europe, providing gigawatt-hour-scale energy storage capacity. It will store surplus electricity generated by ...

Integrating together a pumped-storage hydroelectric power plant and a modern battery storage represents a unique power ...

Echogen, a pioneer in supercritical carbon dioxide (sCO₂)-based PTES technology, is collaborating with Westinghouse to deploy long duration energy storage (LDES) solutions ...

European Commission funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant in Slovakia.
