How did Italy's first solar auction work?

Italy's first solar auction under the transitional FER X incentive scheme drew 17.5 GW in project proposals and an additional 2.87 GW in wind bids, according to state-run energy agency Gestore dei Servizi Energetici (GSE). From pv magazine Italy

How much does a solar project cost in Italy?

She is graduated in Economics and loves painting in her free time. Italy awarded more than 1.1 gigawatts of capacity to 88 projects in its first auction exclusively for solar projects built without equipment manufactured in China, setting an average price of 66.38 euros per megawatt hour.

How many MW of solar power will be available in Italy?

Prequalified project developers have until Sept. 12 to submit final offers. The auction also accepted proposals for wind power projects, which totaled 2.87 GW. No bids were submitted for hydropower or residual gas from depuration processes. Italian authorities expect to allocate more than 600 MW of solar photovoltaic capacity through the auction.

How many solar project proposals are there in Italy?

From pv magazine Italy The first solar energy auction under Italy's new incentive scheme for renewable energy, the "transitional" FER X program, has attracted 1,387 project proposals with a combined capacity of 17,537 MW, according to Italian energy agency GSE. Prequalified project developers have until Sept. 12 to submit final offers.

Italian authorities expect to allocate more than 600 MW of solar photovoltaic capacity through the auction. "The data confirm excellent participation in photovoltaics and a trend ...

European Investment Bank, Iberdrola and SACE launch a pioneering EUR100m (US\$102.9m) project to advance Italy's solar power capacity and sustainable growth

Italy has awarded more than 1.1 gigawatts (GW) of capacity to 88 projects in its first solar auction restricted to installations using non-Chinese equipment. The auction set an ...

Italy awarded 1.1 GW of solar across 88 projects in its first FER-X auction favoring non-Chinese equipment, at an average EUR66.38/MWh--about 17% above a comparable ...

Italy's photovoltaic market is soaring past 40 GW in 2024. Discover the key drivers, government incentives, and future outlook for solar installations in Europe's second ...

Subscribe to our database on Solar Photovoltaic (PV) Projects and Tenders in Italy to get access to reliable and high-quality insights on upcoming, under-construction, and completed Solar ...

The entire nation of Italy retains high potential for solar energy production, ranging from 3.6 kWh per square meter per day in the Po river plain to 5.4 kWh per square meter per day in Sicily.

Italy's latest renewable energy auction has received more than 1,300 expressions of interest from solar companies, representing a combined proposed capacity of 17.5GW of ...

Italian authorities expect to allocate more than 600 MW of solar photovoltaic capacity through the auction. "The data confirm excellent ...

Italy awarded more than 1.1 gigawatts of capacity to 88 projects in its first auction exclusively for solar projects built without equipment manufactured in China, setting an ...

Italy has awarded 1.1GW of solar PV in its Net Zero Industry Act (NZIA) non-price criteria FER-X auction. In total, 88 projects have been awarded, which represents nearly half ...
