Introducing the latest option for mounting solar arrays to standard CONEX shipping containers. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of ...

Discover the transformative potential of solar panels on shipping containers. Explore custom kits, modular configurations, and innovative applications.

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system ...

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system includes solar panels, a lithium iron phosphate ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Turn your container wall into a power station - without welding, cutting, or complicated installs! Our solar panel mounting kits are designed specifically for shipping containers.

A solar panel on a shipping container project integrates photovoltaic (PV) technology into standard shipping
