If you're converting a shipping container into a living or working space, optimizing airflow and lighting is essential. Solar-powered vents and skylights provide low-maintenance ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Shipping containers require reliable ventilation to protect cargo and maintain a safe, comfortable workspace. Solar-powered vent systems offer a clean, maintenance-free ...

Keep your container cool, dry, and mold-free with our specialized solar-powered vent, engineered to fit perfectly on the corrugated roof of ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

If your container is also damp due to condensation buildup in the winter and overheating in the summer, causing your cargo to melt. This Solar Ventilator Kit is a good choice.

Keep your container cool, dry, and mold-free with our specialized solar-powered vent, engineered to fit perfectly on the corrugated roof of standard shipping containers.

Explore our 2025 new solar container outdoor power lineup and ensure you find exactly what you're looking for.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

Eliminate moisture and excess heat with our state-of-the-art computer-modeled frame design, which adapts the Canada Go Green 4 Seasons Solar Vent (included) to corrugated shipping ...

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential ...
