Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

While the One Big Beautiful Bill Act (OBBBA) hammered renewable energy incentives, energy storage emerged unscathed. Storage still has access to the full investment ...

More than 1.1 GWh of energy storage, the majority of it developed alongside solar projects, is due to come online by the end of next year after three more big US funding ...

Let's face it: the U.S. solar energy storage sector isn't just growing--it's exploding like popcorn in a microwave.

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.

These shifts are transforming what's possible for developers, utilities, and grid operators, not only in scaling renewable energy, but also in how and when to integrate storage.

In 2024, 91% of new renewable projects offered cheaper electricity than the lowest-cost, new-build fossil fuel alternative. The cost of battery energy storage systems for grid ...

In 2024, 91% of new renewable projects offered cheaper electricity than the lowest-cost, new-build fossil fuel alternative. The cost ...

One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

Key U.S. Solar and Energy Storage Manufacturing Stats: A strong U.S. solar and storage manufacturing base can reduce supply chain uncertainty, drive clean energy deployment, and ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...
