---

The solar park in Targale will significantly boost Latvia's solar energy generation, strengthening its position in the renewable energy ...

The Stelpe Solar Farm I is being developed in the southern part of Latvia, specifically in Bauska Municipality. The total investment for the first phase of the solar farm, ...

Ignitis Renewables, an international green energy company, has completed its first solar project in Latvia where Varme solar farm, located in the Kuldiga municipality, has ...

The works include installation of solar panels with total capacity of 93.5 MW DC, 18 medium-voltage power stations, 232 combiner boxes, irradiance sensors, weather stations, ...

Latvia is moving forward on its renewable energy goals with plans for two major solar parks. The larger of the two, a 229-megawatt (MW) solar power facility developed by ...

Copenhagen, Denmark, 3 October, 2024 - European Energy is set to begin construction on the largest solar farm in Latvia to date. The solar farm will ...

Construction work is currently underway. The total number of solar panels installed in these projects is around 389,000 and the solar farms will provide green energy to nearly ...

Copenhagen, Denmark, 3 October, 2024 - European Energy is set to begin construction on the largest solar farm in Latvia to date. The solar farm will have a capacity of 148 MW once ...

A major new solar power plant opened September 25 in Latvia on the outskirts of Cesis. The new plant will supply 10,000 households in Cesis and the surrounding area with ...

European Energy, a global leader in renewable energy development, is ready to start construction of its first solar park in Latvia. This project, spanning 138 hectares in Targale, ...

Danish renewables developer European Energy A/S said on Thursday it has launched the construction of a 148-MW solar park in Latvia, its first photovoltaic (PV) project in ...

The solar park in Targale will significantly boost Latvia's solar energy generation, strengthening its position in the renewable energy market as well as contributing to the ...
