Once we understand how much power you need for your solar installation, our engineers will design the optimal solution to meet those needs. With a complete and approved design, your ...

Offices in Juba, South Sudan have had a 50.144kWp solar installation with a 218kwh battery energy storage system commissioned recently.

Aptech Africa Ltd. recognized this opportunity early on and set out to provide innovative solar solutions tailored to the needs of ...

Aptech Africa is delighted to announce the successful installation of 26 MW of solar panels in Juba, South Sudan. This project ...

Aptech Africa is delighted to announce the successful installation of 26 MW of solar panels in Juba, South Sudan. This project was entirely self-funded by Ezra Construction ...

A recent commissioning has activated a 50.144 kWp solar installation, accompanied by a 218 kWh battery energy storage system, at offices in Juba, South Sudan. ...

In March 2020, South Sudan's installed generation capacity was reported as approximately 130 MW. Most of the electricity in the country is concentrated in Juba the capital and in the regional centers of Malakal and Wau. At that time the demand for electricity in the county was estimated at over 300 MW and growing. Nearly all electricity sources in the country are fossil-fuel based, with attendant challenges of cost and environmental pollution. There are plans to build new generati...

Recently, they successfully designed, supplied, installed, and commissioned a cutting-edge 229.9kWp solar

rooftop grid-tied system in the heart of Juba.

By designing, supplying, installing, and commissioning a state-of-the-art 229.9kWp solar rooftop grid-tied system, Aptech Africa ...

By designing, supplying, installing, and commissioning a state-of-the-art 229.9kWp solar rooftop grid-tied system, Aptech Africa has demonstrated its commitment to transforming ...

There are plans to build new generation stations and to import electricity from neighboring Ethiopia, Sudan and Uganda, but the civil war has hindered progress in that direction.

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 8 locations across South Sudan. This analysis provides insights into each city/location's ...

Aptech Africa Ltd. recognized this opportunity early on and set out to provide innovative solar solutions tailored to the needs of businesses, institutions, and residences in ...
