---

It automatically switches to battery mode during emergencies--like hurricanes or earthquakes--ensuring your devices stay powered and your data stays safe. Stay connected ...

UPDATE: Shortly after I published my initial review of the Yoshino solid state battery pack I bought for myself on Amazon, some ...

UPDATE: Shortly after I published my initial review of the Yoshino solid state battery pack I bought for myself on Amazon, some people left comments that the company, ...

In this paper, UK battery experts Balance Batteries Ltd (Balance Batteries) modelled an hypothetical battery pack that capitalizes ...

Unlike traditional batteries, semi-solid-state batteries sit between a liquid and solid, instead using a gel-like electrolyte substance.

The cell manufacturing processes we have developed are already used globally for high volume traditional lithium-ion battery cell production, which we anticipate will enable manufacturers of ...

At CM Batteries (CMB), we specialize in designing and manufacturing high-performance custom battery packs using the latest advancements in solid state battery technology.

At CM Batteries (CMB), we specialize in designing and manufacturing high-performance custom battery packs using the latest advancements in solid ...

BMX is launching its SolidSafe mobile power bank on Kickstarter with a solid core that significantly reduces the amount of flammable liquid inside the battery.

It automatically switches to battery mode during emergencies--like ...

In this paper, UK battery experts Balance Batteries Ltd (Balance Batteries) modelled an hypothetical battery pack that capitalizes on the expected benefits of Ilika's solid state ...

California-based Yoshino Technology has developed portable batteries using solid-state Li-NCM cell technology. The four variants come with power outputs of 330W, 660W, 2,000W, and ...

[Long-Lasting Power, Healthier Charging] Engineered for durability, the solid-state power bank retains up to 80% capacity after 1,000 full charge cycles. It provides approximately ...

The cell manufacturing processes we have developed are already used globally for high volume traditional lithium-ion battery cell production, ...

A mock-up design of Samsung SDI's solid-state battery - credit, Samsung, released In late October, Samsung announced that it was preparing to take its long-anticipated ...
