This article highlights the current status of Somaliland's energy sector, its vast renewable energy potential, ongoing reforms, and the investment opportunities available for ...

This article explores market trends, cost-saving benefits, and how businesses in Somaliland can leverage advanced battery systems to meet growing energy demands.

The Ministry of Energy and Minerals in Somalia has opened a tender for the installation of a 12 MW solar PV project with a 36 MWh battery energy storage system ...

The Somaliland government awarded Genel Energy license to explore oil within its territory. Results of a surface seep study completed early in 2015 confirmed the outstanding potential ...

SOMALILAND SHARED ENERGY STORAGE COMPANY In October 2017, DHYBRID as the general contractor delivered and installed a turnkey PV hybrid system with a 250 kW lithium- ...

Next-generation battery management systems maintain optimal performance with 50% less energy loss, extending battery lifespan to 20+ years. Standardized plug-and-play designs have ...

Following the footsteps of Zimbabwe, Namibia, and others, Somaliland has the opportunity to power not only global industries but ...

Discover how Somaliland's vast wind and solar potential, combined with its rich reserves of rare earth minerals like lithium, positions it as a future leader in renewable energy ...

Genel is in advanced oil exploration with OCTG planned for Toosan drilling including installation of well
