As countries are meeting at COP28 to brainstorm clean and just energy transitions to combat the climate crisis, it is time for South ...

As demand for grid-scale storage continues to accelerate across key APAC markets, Trina Storage has been selected to supply advanced BESS technology for several ...

This study evaluates the policy and regulatory environments for storage deployment and applies state-of-the-art modeling tools to understand the technical, economic, and policy ...

In this paper, a dual-layer optimal configuration method of user-side energy storage system is proposed, which considers high reliability power supply transaction models ...

We conducted scenarios-based capacity expansion modeling to assess when, where and how much energy storage can be cost-effectively deployed in India through 2050.

This study evaluates the policy and regulatory environments for storage deployment and applies state-of-the-art modeling tools to understand the technical, economic, and policy drivers for ...

Building fully integrated regional grids, long-distance transmission lines and grid-scale storage technologies is imperative for Southeast Asia so that countries can start ...

In this post, I delve into 10 compelling case studies from across South Asia, showcasing how countries like India, Pakistan, Bangladesh, Sri Lanka, and Nepal are ...

it is time for South Asia to leverage the power of regional energy ...

Across the region, countries are moving towards deployment targets, overcoming supply chain hurdles, and unlocking new pathways to scale up utility-scale batteries alongside ...

Building fully integrated regional grids, long-distance transmission lines and grid-scale storage technologies is imperative for ...

ES can complement variable renewables, but new investments in ES are not necessarily needed to integrate large amounts of renewable energy (e.g., GTG study for India).

Across the region, countries are moving towards deployment targets, overcoming supply chain hurdles, and unlocking new pathways to ...

In this post, I delve into 10 compelling case studies from across South Asia, showcasing how countries like India, Pakistan, Bangladesh, ...
