With its hydroelectric power plants in the Alps and innovative projects, Switzerland is contributing to the search for solutions for the efficient, long-term storage of electricity.

Well, they're now making waves in energy storage. The Federal Council just launched Europe's most ambitious battery storage tender - a 900 MW capacity push to solve their Alpine energy ...

"This project helps to stabilize the electricity grid in Switzerland and to optimize the management of our own energy and power capacity in Wettingen."

At the BFH Energy Storage Research Centre, we research electricity storage solutions for mobility and the supply of power. Learn more today.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it ...

Swiss engineers are converting excess summer solar into hydrogen stored in repurposed natural gas caverns. Come winter, this becomes heating fuel - solving the ...

The project combines utility-scale storage with an AI data center and district heating network in an ambitious multi-use development.

This ambitious initiative not only represents a record-breaking flow battery (redox) energy storage system but also signifies a pivotal shift in Europe's energy landscape.

At the BFH Energy Storage Research Centre, we research electricity storage solutions for mobility and the

supply of power. Learn ...

With this large-scale storage system, we are making an important contribution to implementing Switzerland's Energy Strategy 2050. The country is pursuing the goal of transitioning its ...

Energy storage is rapidly become more and more relevant due to the increasing renewable energy fraction in the grid, the rise of photovoltaics and the increase in electric cars.

Energy storage is rapidly become more and more relevant due to the increasing renewable energy fraction in the grid, the rise of photovoltaics ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in ...

With this large-scale storage system, we are making an important contribution to implementing Switzerland's Energy Strategy 2050. The ...
