Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

What is a battery energy storage system (BESS)?

Modular, multi-story structure designed to house battery energy storage systems (BESS) for unparalleled energy density. Family of gravity energy storage products that decouple power and energy while maintaining a high round-trip efficiency, without the need for specific topography.

What is a customer-centric approach to energy storage?

Our customer-centric, solutions-based approach is grounded in our belief that energy storage technologies will continue to evolve rapidly, requiring a close customer connection, technology diversification, and sustained innovation.

Delta Capacity is a Swiss-based developer of utility-scale battery storage systems and has quickly become one of Europe's fastest growing companies in the BESS sector.

As a Swiss Engineering, Procurement and Construction (EPC) specialist, we implement customised, modular battery storage solutions that increase your energy efficiency and reduce ...

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2025. Get the latest updates on their products, jobs, funding, investors, ...

Energy Vault added that it has opened a new service and logistics center in Central Switzerland, acting as a hub for deployments and service in wider Europe and the Middle East.

Delta Capacity is a Swiss-based developer of utility-scale battery storage systems and has quickly become one of Europe's fastest growing ...

Its offerings include proprietary gravity, battery, and green hydrogen energy storage hardware technologies. Its technology portfolio delivers customized short and long duration ...

We are the only energy storage company offering solutions encompassing short to long to ultra long duration needs with proprietary battery, gravity, and hybrid-hydrogen ...

This project consolidates our position as a leading provider of energy storage solutions in the DACH region and actively promotes a more sustainable energy future.

Find the top Energy Storage suppliers & manufacturers in Switzerland from a list including Innolith AG, Proventia & Designwerk Technologies AG

These installations embody what B-VAULT FlexGrid was designed to do: deliver compact, compliant, and intelligent energy storage where it's needed most, without ...

Their expertise in customized battery systems and management software contributes to enhanced grid stability and the integration of renewable energy sources, making them a key player in the ...
