Will Japan's first dedicated Energy Storage fund be funded by private investors?

Suminori Arima, Chief Investment Officer at Gore Street Capital, commented: "We are pleased to announce the completion of this fundraising round for Japan's first dedicated energy storage fund, which has received support from private and public investors."

What is the GI Energy Storage fund?

The Fund is managed by GI Energy Storage Management, which was jointly established with Gore Street Capital (GSC), and is Japan's first dedicated fund that handles everything from investment and development to operation in new energy storage plants (including those with renewable energy facilities) in the Kanto area and elsewhere.

What is the Tokyo electricity fund (HTT)?

The Fund will accelerate the promotion of the "HTT ((H)Reduce, (T)Create, (T)Store)" concept for electricity, which the Tokyo Metropolitan Government is striving for and support the realisation of Zero Emission Tokyo while contributing to Japan's decarbonisation efforts.

Is a 20 mw/80 MW project eligible for Japan's decarbonization auction?

The fund has acquired a 20 MW/80MWh project in Kasama City, Ibaraki Prefecture. The Kasama project has been sized to qualify for Japan's long term decarbonization power source auction, a support program similar to capacity markets seen in other countries, according to Gore Street Capital.
