Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry,Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry,Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders,the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023,according to the International Renewable Energy Agency (IRENA).

When will Tunisia get a photovoltaic power plant?

The government will await proposals until April 30,2025. The capacity will be awarded under the second round of the country's AO-01-2022 call for tenders,through which Tunisia aims to find contractors for 1,700 MW of photovoltaic (PV) projects under its national renewable energy development programme.

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to ...

With abundant solar resources and strong government backing, the country presents an attractive landscape for investors and developers looking to enter North Africa's ...
