When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. For instance, specialized units like the LZY-MSC1 Sliding Mobile Solar ...

They are the perfect answer for delivering green energy to small space container conversions! Contact our team if you're looking to add renewable energy to your container conversion project.

With our new photovoltaic modules you can turn your 20" portable cabins and sanitary cabins from our CLASSIC Line and PLUS Line range into a cost-efficient and sustainable space solution.

From solar-powered container cabins in the countryside to mobile field offices on construction sites, these off-grid solutions highlight the incredible versatility of shipping containers.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

We are actively driving the evolution towards emission and noise compliant power solutions at worksites. The mobile solar container range redefines on-site power by harnessing the sun's ...

When creating the Solar-Gen range we designed it so that in its standard form it would have been a viable solution for 95% of the off-grid power systems we have ever supplied.

A series of rapidly deployable solar panels stored within a container that can be transported anywhere with road access in the back of a lorry seem bound to replace diesel generators in a ...
