-----

Several projects are currently under development and with some expected to be operational by 2030, and the introduction of an investment support scheme will help deliver them.

Several projects are currently under development and with some expected to be operational by 2030, and the introduction of an ...

The pipeline of grid-scale BESS projects with planning approval in the UK has now reached 58,270MW/121,645MWh in capacity. That's according to the latest data from Solar ...

How new BESS planning guidance in the UK is prompting the re-evaluation of project risk and design. Here is a summary of some of ...

A new era for renewable power and energy security begins today (Tuesday 8 April) as Ofgem launches a new cap and floor investment support scheme, unlocking billions in ...

Renewable energy project approvals hit record high in GB in 2025, data shows Applications to build battery storage drive boom as offshore wind projects given go-ahead ...

The pipeline of grid-scale BESS projects with planning approval in the UK has now reached 58,270MW/121,645MWh in capacity. ...

Listed below are the five largest energy storage projects by capacity in the UK, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...

In this blog, we'll explore the top 7 battery energy storage system projects in the UK for 2025. We'll look at each project's capacity, project cost, current status, and how it supports the ...

Tesla Energy has secured another massive Megapack project in the UK. Matrix Renewables announced today that it has signed a full EPC agreement with Tesla for a 500 ...

From the caverns of Teesside and the reservoirs of Scotland to futuristic cryogenic tanks near Manchester, the UK is assembling a flexible, secure and low-carbon energy storage landscape.

From the caverns of Teesside and the reservoirs of Scotland to futuristic cryogenic tanks near Manchester, the UK is assembling a flexible, secure ...

How new BESS planning guidance in the UK is prompting the re-evaluation of project risk and design. Here is a summary of some of the themes examined at the summit ...

There has been a shift in the pipeline for current and future long duration electricity storage (LDES), from over 7.2GW in December 2023 ...

There has been a shift in the pipeline for current and future long duration electricity storage (LDES), from over 7.2GW in December 2023 to 10.5GW in May 2024. In January, the ...
