What does an Explosion-proof Uninterruptible Power Supply system do? The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power ...

STAHL, with its more than 80 years of experience in explosion protection, is able to transfer the requirements of a modern UPS system into systems, which are suitable for use in explosion ...

The iPS1200EX explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & instrumentation systems in Zone 1 & 2 hazardous ...

The iPS1200EX explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & ...

The iUPS101 uninterruptible power supply (UPS) system is certified for use in ATEX and IECEx Zone 1 and Zone 2 hazardous areas.

This protects machinery and systems, prevents costly production losses and allows for the controlled

shutdown of systems following prolonged interruptions to the power supply.

This UPS features a surge energy rating of 540 joules and full-time multi-pole noise filtering. An accessible black pushbutton is available for on/off functions on the enclosure, as well as a ...

The iUPS101 provides reliable back up power to ensure that vital equipment - such as instrumentation and control systems, navigation or landing lighting, and blow out prevention ...

When maximum system availability is required in hazardous regions, R. STAHL's modular UPS system enables unique solutions to be designed to ensure the system's uninterrupted power ...

The PDSiUPS200 is designed to be either wall or pole mounted, is IP66 rated and made of 316L stainless steel making the rugged enclosure suitable for installation in potentially explosive, ...
