The facility, to be built in Kapeeka, marks the first phase of Uganda's ambitious plan to deploy over 1 gigawatt (GW) of solar and battery storage capacity nationwide.

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW renewable rollout.

The project, led by EA Astrovolt, the East African arm of U.S.-based Energy America, is part of a wider national goal to integrate more than one gigawatt of solar-plus ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated ...

The 100 MWp solar photovoltaic (PV) power plant integrated with a 250 MWh battery energy storage system (BESS) project will be delivered by U.S.-based Energy ...

Discover how this project boosts grid stability and advances solar energy in Uganda.

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build ...

The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power ...

The Government of Uganda has issued a Gazetted Policy Direction authorising the development of a 100-megawatt-peak (MWp) solar PV plant with 250 megawatt-hours (MWh) ...
