This investment aims to expand the country's energy infrastructure and support the growing share of ...

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new ...

Summary: Bulgaria's energy sector is rapidly adopting 220V uninterruptible power supply (UPS) systems to stabilize grids and support renewable integration. This article explores market ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

This investment aims to expand the country's energy infrastructure and support the growing share of intermittent renewable power, particularly from solar and wind.

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new facility near Sofia. Its latest model ...

That's where uninterruptible power supply (UPS) solutions become Bulgaria's silent guardians. With increasing industrial automation and renewable energy adoption, power stability is no ...

Sunpal Power, a global leader in high-performance solar photovoltaic systems, proudly showcases its latest project: a 500kW hybrid energy storage system installed in Bulgaria.
