How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more? LiFePO4 power stations will last for more than 3,000 charge cycles, or about 10 years.

What is USB C charging block?
