The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

We offer a highly portable container, designed as a shop space, to load portable batteries, to filter water and sell clean water & energy.

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

Explore a step-by-step breakdown of how solar containers harness and store solar energy. Understand the process of converting ...

The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal ...

Precisely, these panels normally use very efficient thin-film solar technology, which is lightweight, flexible, and easy to fold. In the ...

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV ...

Precisely, these panels normally use very efficient thin-film solar technology, which is lightweight, flexible, and easy to fold. In the best scenario, these high-efficiency solar panels ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, ...

Explore a step-by-step breakdown of how solar containers harness and store solar energy. Understand the process of converting sunlight into DC electricity through photovoltaic ...
