Which solar energy options are available in Sudan?

In Sudan, three solar energy options are available: 1. Solar PV energy: 1000 MW (on- and off-grid) will be applicable in different states within Sudan. 2. Solar CSP technology: 100 MW (grid connected) will be applicable, especially in the northern part of Sudan. 3. Waste to Energy: 80 MW (grid connected) will be applicable in several intended sites.

What can Solar do for Sudanese communities?

We design, install and maintain solar systems that empower Sudanese communities and businesses. Reliable off-grid systems for hospitals and clinics; powering critical equipment, lighting and vaccine fridges. Solar water pumping and irrigation for farms; solar cooling for storage; reliable power for agro-processing.
