What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What types of battery cabinets are available?

Tariff Relief. Up to 10% Protection. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements.

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs.
