Who makes uninterruptible power supply?

APC was founded in the United States in 1981, and is another prominent Uninterruptible Power Supply brand. APC is probably the most well-known provider of UPS devices in general, known for providing premium UPS units for about as long as they've been in business.

What is an uninterruptible power supply (UPS)?

However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) comes in. Its main function is to act as a big battery that powers your devices when your electricity goes out.

Why should you buy an uninterruptible power supply?

A UPS serves a backup battery role in case of a sudden power outage, preventing your PC from shutting down before you're able to save your work, close your game, etc. A UPS is an ideal pick for anybody who wants clean and stable power delivery to their PC. What Makes an Uninterruptible Power Supply Brand Good?

What is the best uninterruptible power supply brand?
