-----  
**Is Zambia an export powerhouse?**

As mentioned in the previous chapter, Zambia has developed into an export powerhouse in recent years. This is also demonstrated by the data from the first half of 2022.

**What companies trade in electricity in Zambia?**

Private companies also trade in electricity in Zambia. The largest of these, Copperbelt Energy Corporation Plc (CEC), buys electricity primarily from ZESCO and sells it to the various mines in the Copperbelt Province. It also operates its own generators, most of which run on fossil fuels.

**What does Zambia export?**

Other than copper, which accounts for 70% of the country's total exports, Zambia exports sugar, tobacco, gemstones, cotton and electricity. Based on data from ZamStats, Zambia's main export trading partners are Switzerland (45% of total exports), China, DRC and South Africa.

**Why should German and European service providers invest in Zambia?**

For German and European service providers active in the energy sector, Zambia presents significant potential for business development. There are clear needs across the solar energy and storage value chain, including project development and financing, equipment manufacturing, system integration and contracting.
